

# Accessibility Statement for the Learning on Screen website

Learning on Screen is committed to ensuring digital accessibility for all users, including people with disabilities. We aim to provide a website that is accessible and easy to use for everyone.

---

## Our Commitment

We strive to meet the **Web Content Accessibility Guidelines (WCAG) 2.2 level AA**. These guidelines explain how to make web content more accessible to people with a wide range of disabilities, including visual, auditory, physical, speech, cognitive, language, learning, and neurological disabilities.

---

## How Accessible This Website Is

Users should be able to do the following:

- Access alt text for all imagery across the site
- Zoom up to 200% without impacting the functionality of the website
- Navigating the website and control the video player using just a keyboard
- Listen to most of the website using a screen reader

Efforts have also been made to ensure the text is in plain English and is simple to read and understand.

We know some parts of this website are not fully accessible, namely:

- Some videos may not have captions or audio descriptions, but usually this is due to licensing restrictions around copyright for our embedded Box of Broadcasts content.

We are actively working to address these issues as part of our ongoing commitment to accessibility.

---

## What We're Doing to Improve Accessibility

We are:

- Undertaking regular accessibility audits using automated tools and manual testing.
  - Providing accessibility training to staff involved in web content and design.
  - Ensuring all new content meets accessibility standards before publication.
- 

## Reporting Accessibility Problems

If you experience any difficulty accessing any part of this site, please contact us so we can try to fix the issue and provide the information in an accessible format.

**Contact the team** [kate@learningonscreen.ac.uk](mailto:kate@learningonscreen.ac.uk)

We aim to respond to accessibility feedback within 5 working days.
